May 2022

Dear Player,

This note is regarding players who are actively competing in ITF tournaments during the indoor and outdoor seasons.

Because of the limits on facilities and number of weeks during competitive seasons, many of our regional events will fall within the timeline of ITF Tournaments.

The ruling for players is that "no player should be committed to play in two events at the same time." This means that a player can't actively be in an ITF draw with the promise of playing a regional event on the same weekend in the event that they are eliminated from the ITF before regional play begins.

However, if a player is eliminated from the ITF event **BEFORE** the entry deadline for the regional Tennis Alberta event, they are no longer committed to that ITF and are free to register for the regional event.

The entry deadline for Tennis Alberta regional events will remain Mondays at 11:59pm GMT. Any player wishing to register for this event will need to be eliminated from **BOTH** Singles and Doubles of the ITF event by that time.

Thank you for your compliance and understanding with this matter.

Tennis Alberta
